

Demetrice Williams

Professional Summary

Detail-oriented software engineer with 2 years of software development experience with the ability to carry projects from design to implementation to integration.

A highly motivated individual with a strong passion for front-end engineering who fully embraces teamwork but is very capable of working independently.

Work History

FORVIS – Software Engineer

07/2021 - Current

- Designed and presented mockups/wireframes for stakeholder approval.
- Performed as a Lead Software Engineer on two internal projects.
- Built RESTful APIs that served data to both Blazor framework and JavaScript libraries
- Designed and implemented UI features for new and existing projects.
- Implemented system design concepts such as caching.
- Participated in code reviews with both the engineering and product team to gain constructive feedback
- Created a design guide to serve as the company standard.
- Ensured proper documentation and reports in all stages of the product life cycle.

United States Air Force - Human Resources Assistant

10/2020 - 03/2021
